

TAX REFORM: RESULTS

Tax reform is empowering manufacturers to hire more Americans and increase wages and benefits.

A recent NAM member survey showed:

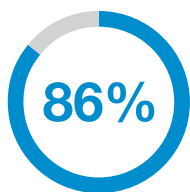

77% of manufacturers plan to increase hiring thanks to tax reform.

72% of manufacturers plan to increase wages or benefits for their workers **thanks to tax reform.**

Double the number of jobs:
115,000 manufacturing jobs created since tax reform went into effect in 2018, nearly double the 63,000 created over the same period last year.

Tax reform is enabling manufacturers to invest more in U.S. manufacturing, equipment and facilities— which also helps create good jobs.

A recent NAM member survey showed 86% of manufacturers plan to increase investments thanks to tax reform.

Record-Breaking

95% of manufacturers report a positive outlook for their companies and the economy in the latest NAM Manufacturers' Outlook Survey— **the highest level of optimism in the 20-year history of the survey**, with tax reform cited as a major reason for it.
