Ranking Member  
United States Senate  
Committee on the Judiciary  
152 Dirksen Senate Office Building

Dear Chairman Grassley and Ranking Member Leahy:

The undersigned companies and organizations write to express our support for S. 1890, the Defend Trade Secrets Act. We appreciate the leadership of the Committee and the bill's sponsors on this issue.

The Defend Trade Secrets Act will create a harmonized, uniform standard and system for companies to protect their trade secrets. Your bipartisan legislation will establish a strong standard for trade secret protection.

Trade secrets are an essential form of intellectual property. Trade secrets include information as broad-ranging as manufacturing processes, product development, industrial techniques, formulas, and customer lists. The protection of this form of intellectual property is critical to driving the innovation and creativity at the heart of the American economy. Companies in America, however, are increasingly the targets of sophisticated efforts to steal proprietary information, harming our global competitiveness.

Existing state trade secret laws are inadequate to address the interstate and international nature of trade secret theft today. Federal law protects trade secrets through the Economic Espionage Act of 1996 ("EEA"), which provides criminal sanctions for trade secret misappropriation. While the EEA is a critical tool for law enforcement to protect the clear theft of our intellectual property, U.S. trade secret owners also need access to a federal civil remedy and the full spectrum of legal options available to owners of other forms of intellectual property, such as patents, trademarks, and copyrights.

The Defend Trade Secrets Act will create a federal remedy that will provide a consistent, harmonized legal framework and help avoid the commercial injury and loss of employment that can occur when trade secrets are stolen. We are proud to support it and urge the Committee to approve it.
