

## NAM Prescription Drug Options

### Save Money with the NAM Prescription Drug Card

The NAM has negotiated with Caremark for a special “NAM-branded” prescription drug discount card that will enable members to provide prescription drug discounts to employees and retirees who are not eligible to participate in your prescription drug program. If you have part time employees, employees, or retirees who are not covered under your medical or Rx programs, this discount card is right for you. The discount card is not insurance. Here’s how it works:

- **It’s free to NAM members.** You don’t have to enroll and there are no membership fees.
- **Extensive network.** The card may be used at any of 57,000 participating retail pharmacies, including all chain stores and many independents.
- **Savings average 20 percent.** Some discounts may be more, and some less, depending on the drug and quantity purchased. The cardholder pays the negotiated discount price or the pharmacy’s retail price, whichever is lower.
- **Mail-order program is available.** Cardholders are eligible for higher discounts on a 90-day supply of some medications through mail service.
- **Pet prescriptions.** Cardholders also can save on pet prescriptions at participating retail pharmacies.
- **No usage restrictions.** The cards may be used by anyone, regardless of age, income, or existing health coverage.
- **Special safety feature.** In addition to providing savings on prescription drugs, the program has a safety feature that alerts pharmacists — with an online message — when one drug may conflict with another medication the cardholder is taking.
- The Caremark Drug Discount Card Program can be a useful option for Medicare Part D participants. The card also can be used when a Medicare Part D plan doesn’t cover a drug.

Order your cards today at <http://dfmsis.com/nam>. Use name: **NAM** and Email: **Your email address**.

*The NAM also offers members up to 10% savings on their drug pricing through the NAM Rx Coalitions. We offer two coalitions – one for employers with 10, 000 or more employees and retirees and one for members with fewer than 10, 000 employees and retirees. To learn more about the coalitions, go to [www.NAM.org/Rx](http://www.NAM.org/Rx).*

### How Can It be Free?

Caremark negotiates with retail pharmacies to offer discounts off retail prices at the point of purchase. Caremark shares a portion of the manufacturer’s rebate with the consumer at the point-of-sale via an increased discount. The retail pharmacy is reimbursed for this additional discount.

Cardholder information remains confidential and is not resold to a third-party for any reason.
