

MANUFACTURERS' CENTER FOR LEGAL ACTION

Who We Are

The Manufacturers' Center for Legal Action (MCLA) advances the National Association of Manufacturers' (NAM) policy objectives in the courts and safeguards our rights and the rights of our members to advocate the interests that make manufacturing strong.

Why We Fight

All over the country and around the world—from state supreme courts, to federal district courts, to the U.S. Supreme Court and the European Court of Justice—when there is a case to be made to protect hard-won legislative gains and expand opportunity for manufacturers, we will be there—and we will win.

Legal Advisory Council

This is where your leadership shines. The MCLA Legal Advisory Council provides a forum for networking, sharing best practices and discussing compliance challenges. It also provides an important avenue for members to stay involved and participate in setting the MCLA agenda.

Manufacturers' Compliance Institute

The Manufacturers' Compliance Institute (MCI) brings exclusive direct legal help from top-tier law firms — free with membership—so our members can benefit from some of the nation's best legal minds.

Is The Fight Over? Not Even Close.

Just because this country has a pro-manufacturing administration and Congress does not mean the MCLA's work will stop. Our opponents, and even some states, are suing the new administration to stop it from overturning many of the costly regulations that have been issued over previous years. The MCLA will be there, as we always are, to protect your interests.

For more information, contact Linda Kelly, NAM Senior Vice President & General Counsel at LKelly@NAM.org or 202-637-3060.
